## TOYS 4 DADDY

produced and written by Paul Moore  
PHOTOGRAPHY BY PETER CROUSER

In the olden days, you got Dad a book, a sweater or a new pair of pajamas for Christmas. If he was a handyman, you gave him a handsome tool belt. These days, Dad's looking for something a little less common and a little more "Oh my gosh, I can't believe you bought me that!" These gifts could be the perfect fit.

### SPINNING THE GROOVES IN FLAWLESS HARMONY

Audiophiles swear nothing sounds better than vinyl when it's played on the right equipment, and the VPI Super Scoutmaster turntable is definitely the top of the line. It has absolute speed control and a record ring clamp that flattens out warps. Don't forget a worthy cartridge. **\$6,000 without cartridge**, HiFiSound Electronics, Minneapolis, [www.hifi-sound.com](http://www.hifi-sound.com).

### A TOOL THAT SAVES TIME AND FINGERS

With the SawStop table saw, a woodworker's scariest nightmare disappears in a puff of sawdust, thanks to the safety feature that stops the spinning blade within 5 milliseconds of accidental contact. The 10-inch saw's 3-horsepower motor can be upgraded to 7.5 HP, so Dad can turn out those projects as fast as he can think of them. **\$2,800**, Woodcraft, Bloomington, [www.woodcraft.com](http://www.woodcraft.com).

Completely Swiss-made for Tiffany. **\$4,200**, Tiffany & Co., Galleria, Edina, [www.T-57.com](http://www.T-57.com).
